

# Viewing eStatement on Apple products

Recent Apple iPhone, iPad and Mac Operating System updates have created issues with the ability to accurately display Electronic Bank Statements (eStatements) in the default Safari Browser.

## To view eStatements on Apple devices

it is suggested you use Chrome, Edge, or Firefox browsers. Please make sure the browser you are using is updated to the latest version.

Chrome

Edge

Firefox

## Another option for viewing eStatements on Apple products

is to download the eStatements file and open it within a .pdf viewer other than the default .pdf viewer on apple devices (i.e. Adobe Acrobat).

If you are still experiencing issues viewing your statement online, please call First Bank Electronic Banking Department during normal business hours at 888-220-4446 or 907-228-4446 for assistance.
